

Maxilin Project

What if you could help someone go **from this** to **this** in days or weeks?

non-verbal 18 y/o
took **1.5** servings
and **started talking.**

- ✓ **YES** gut health is the key
- ✓ **YES** we have the answer
- ✓ **YES** we are looking for **!!**
pioneers for the Western markets.

The Gut Health Crisis

The gut influences nearly **every major system** in the body:

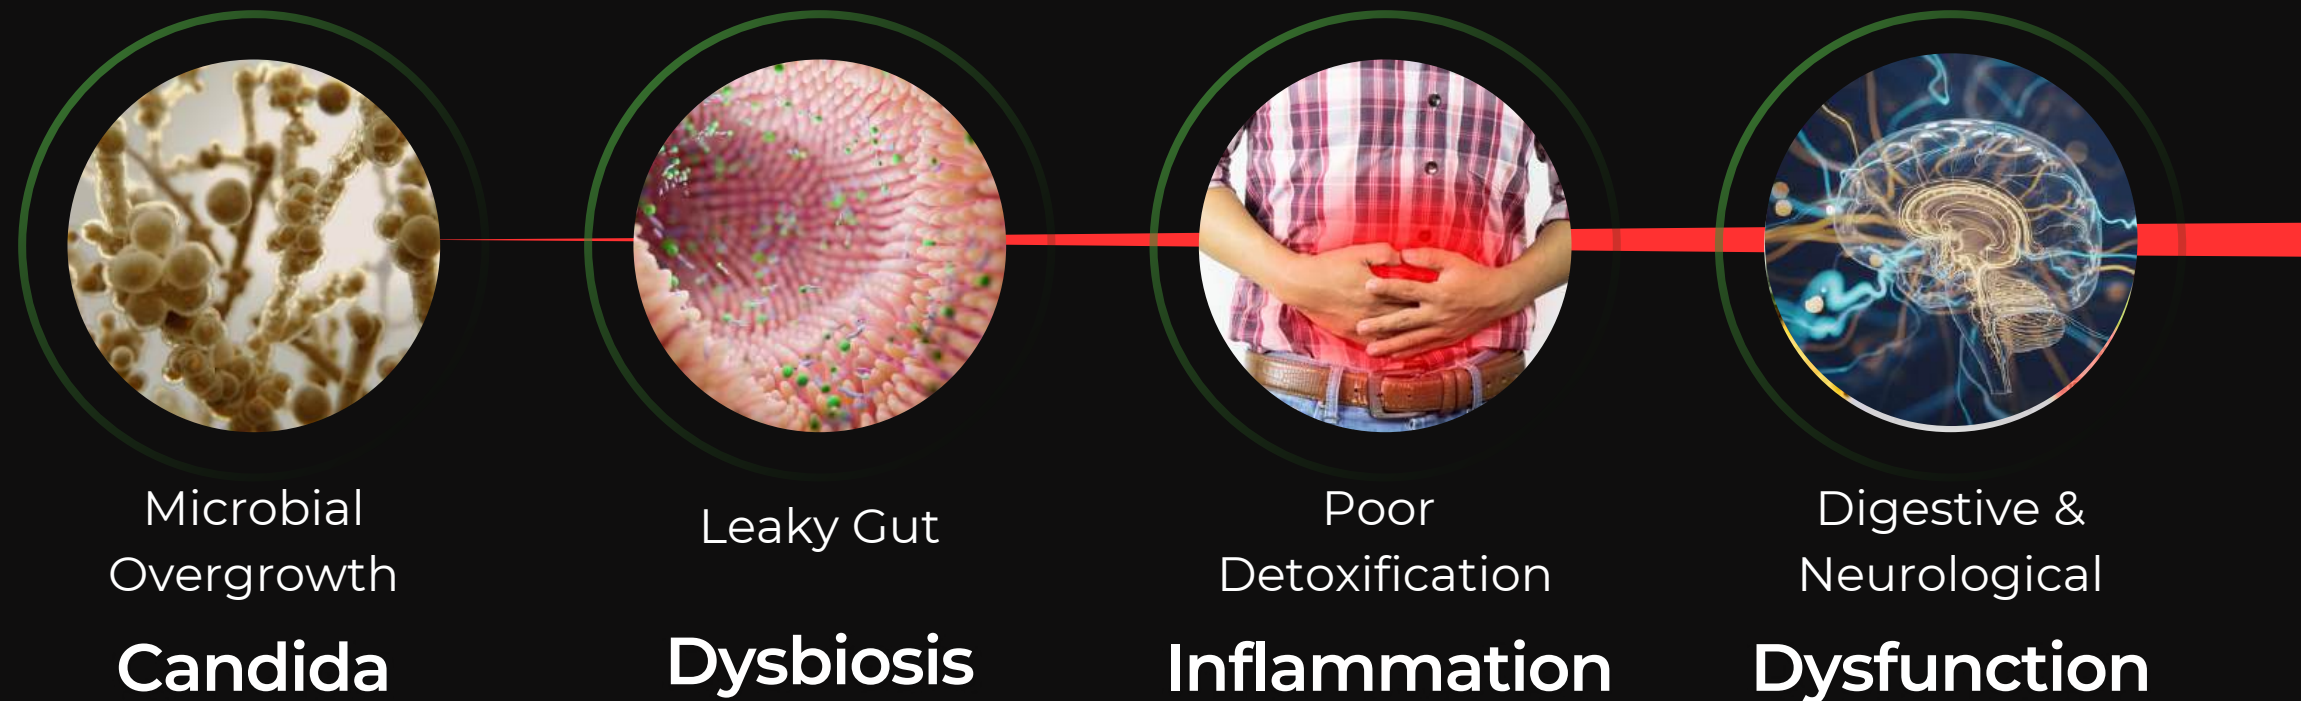

Gut health is **not**
just about digestion

- ↳ IMMUNITY
- ↳ ENERGY
- ↳ METABOLISM
- ↳ INFLAMMATION
- ↳ BRAIN FUNCTION
- ↳ HORMONES
- ↳ HEALTHY AGING

Practitioners know the problem:

Gut health is **primary**, but many have still not found the tool they need

Ordinary Probiotic Challenges

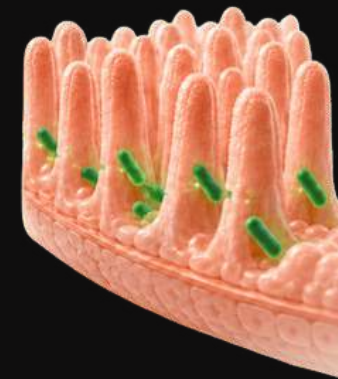

- Low organism count
- Destroyed by stomach acid
- Vulnerable to antibiotics
- Temporary passage through the gut
- Limited ecological competition

Adding bacteria **is not the same** as rebuilding an ecosystem

Introducing **Maxilin TTR CFU** Built to survive

"Before the baby meets the world, the body is already preparing its microbial defense."

- Found in neonatal meconium
- Present before outside exposure
- A natural protective organism
- Part of the earliest microbial defense

BIOLOGICAL RESTORATION FROM THE INSIDE OUT

Antibiotic-Resistant Superbiotics

- Survive the journey
- Arrive alive
- Compete for territory
- Occupy and hold space
- Change and restore the environment

From Mechnikov to Soviet Science

IMMUNITY · BENEFICIAL BACTERIA · LONGEVITY · BIOLOGICAL DEFENSE

1850s

Nomadic herders of Central Asia discovered that milk and meat transported inside lamb-gut casings **did not spoil**

1908

Ilya Mechnikov wins the Nobel Prize for linking the right **bacteria to immunity** and a longer life, the foundation of modern probiotic science

Soviet Era 1980s

Soviet-era scientists spent years developing a wild, **hardy strain** to survive the harshest conditions, then kept it safe inside the state's research archives

NOW

After decades out of sight, **strain 2585** (the antibiotic-resistant **superbiotic**) is only now arriving in the English-speaking world

Why Be Proactive?

AI CAPABILITIES ARE **ENDLESS** - LET'S PUT THEM TO GOOD USE!

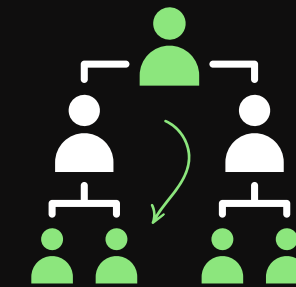

- Reach more people with the **product**
- Help others earn 40% of the PV on all **personal sales and purchases**
- Offer others a Plan B

Example 1: Sponsor **2** who sponsor 2 who sponsor 2:
Earn 10% match on **14** team members

Example 2: Sponsor **5** who sponsor 5 who sponsor 5:
Earn 10% match on **140** team members

As link rotator agents (AI) systematically share links (eg. **100 practitioners to each VIP partner**) more personal team members = more passive income:

E.g: **14** team members x 100 = **1400** potential team orders **VS**
140 team members x 100 = **14,000** potential team orders

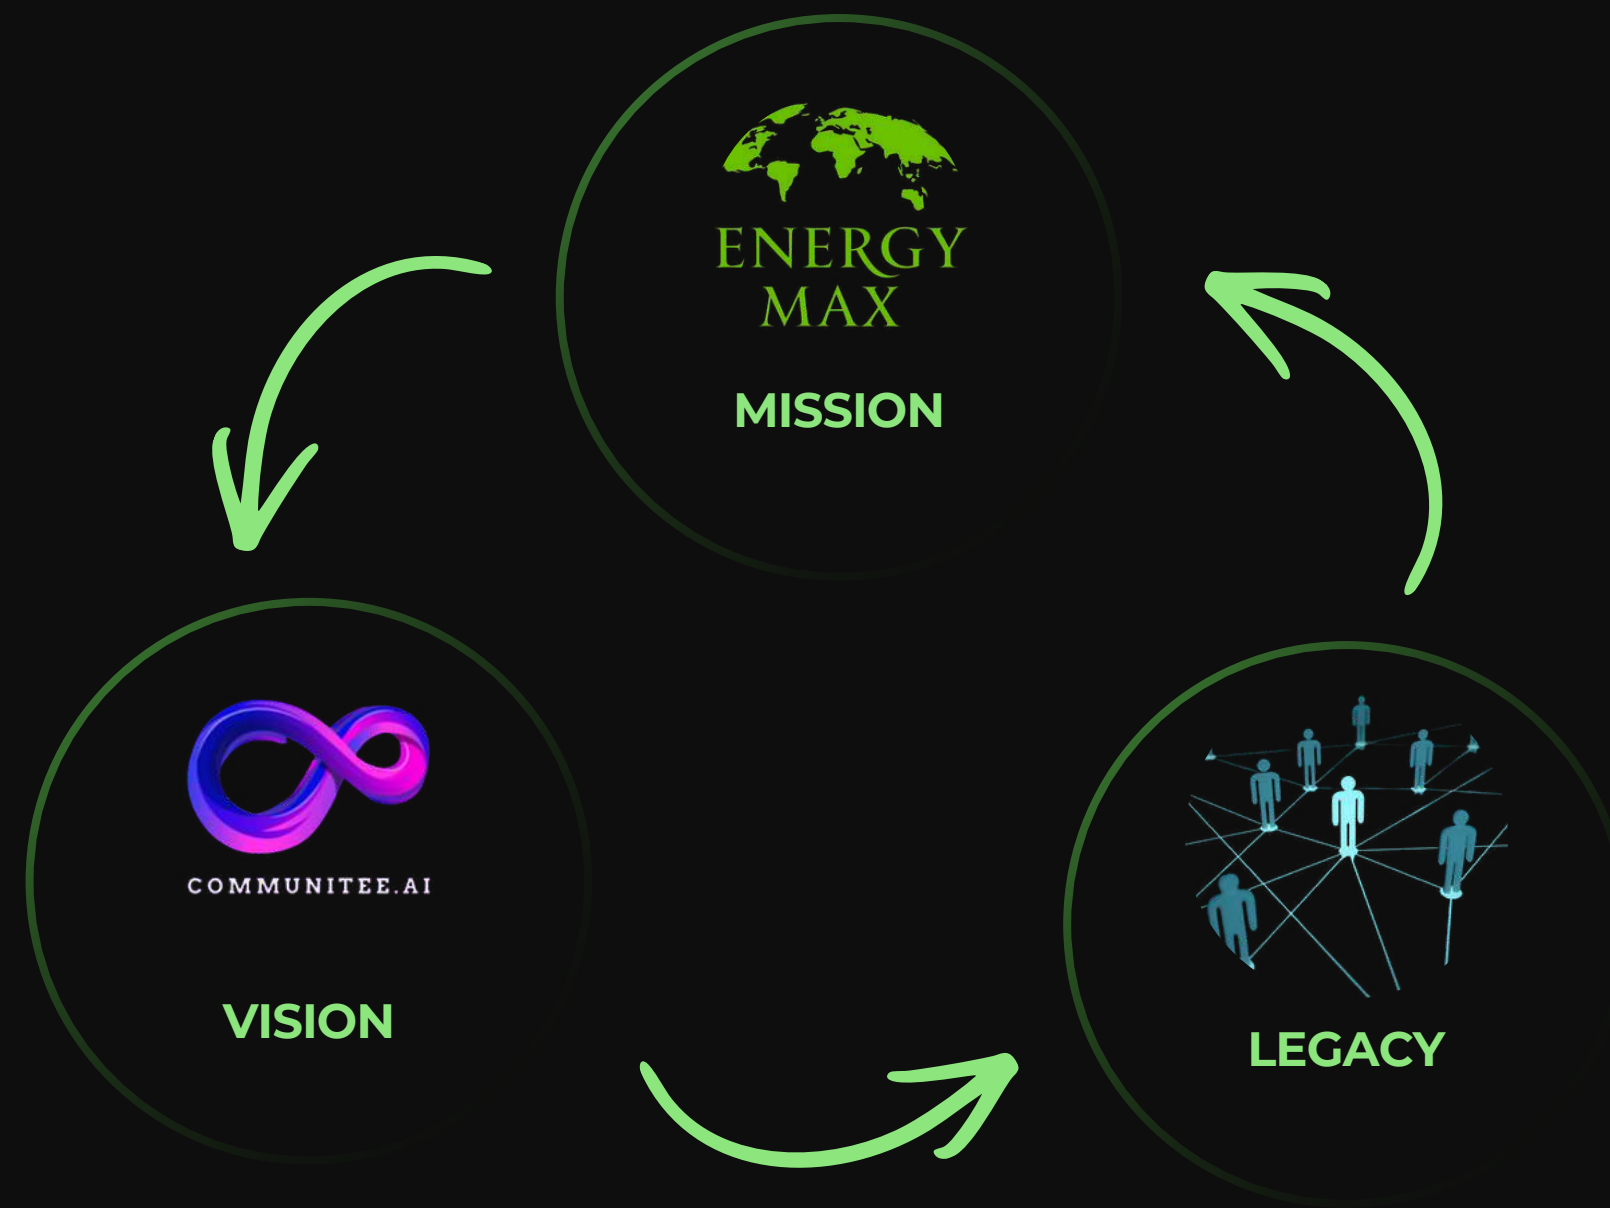

Let's win the battle together!

INFRASTRUCTURE IS GROWING, MASS AWARENESS OF MAXILIN IS COMING
